

Dear Commissioner:

I am a high school student from Albuquerque, New Mexico and I am greatly concerned about the
Downed Animal Protection Act, 98P-0151/CP1. After reading The Jungle in my English class, I
became aware of the first Food and Drug Act in 1906 that made downers illegal. Apparently, the
illegal practice of processing these animals is still going on; I strongly encourage a vote for the
Downed Animal Protection Act, 98P-0151/CP1.

Sincerely,

Brandy Marrs
